## EXPERIENCE

### Impulse Creative, Remote — *Backend Developer*

March 2022 - August 2022

- Built and maintained third party integration servers for Hubspot apps
- Designed and built Hubspot apps, sites, modules, and serverless functions
- Advised on solutions to technical problems
- Offered advice, and resources for improving management of projects

### Burlington Code Academy, Burlington, VT — *Lead Instructor*

February 2019 - January 2022

- Built and maintained the company's internal Learning Management System
- Taught all full time "bootcamp" style courses (3 per year)
- Planned lessons, expanded curriculum content, and updated lesson content to optimize student experience and stay up to date with changing technologies
- Assigned and managed capstone teams working with real clients on real projects
- Hired and trained TAs
- Performed code reviews on student projects
- Hosted events, and workshops to help promote the course, and students.

### Alf Engen Ski School, Alta, UT — *Instructor*

November 2017 - April 2018

- Brought the joy of skiing to children ages 4-7

### J Wong's Asian Bistro, Salt Lake City, UT — *Head Server*

August 2016 - February 2018

- Trained and supervised new servers, and moderated disputes between other servers
- Waited tables, and dealt with customer complaints

Node.js

Cypress

React

Express

MongoDB

Firebase

Git & GitHub

JQuery

JSON

Hubspot

AWS

## SKILLS (personal)

Public Speaking

Research

Customer Service

Digital design

## PERSONAL PROJECTS

### Guildmaster (working title)

An adventure/management game in a fantasy setting where you take on the role of the guildmaster for your archetypal adventurer's guild. Currently a work in progress, and experiment to teach myself C#

## **Kountry Kart Deli, Burlington, VT — *Night Shift Supervisor***

December 2014 - April 2016

- Led a small team in a fast-paced work environment, to provide superior customer service and sandwiches.
- Dealt with intoxicated, and occasionally belligerent college students in a courteous and professional manner.

## **EDUCATION**

### **Burlington Code Academy, VT — *Web Development Certification***

September 2018 - December 2018

- Intensive coding bootcamp with a focus on agile methodology, test driven development, and object oriented design.

### **St. Lawrence University, Canton, NY — *BA in Religious Studies***

August 2010 - May 2014

- Minored in Fine Art and Digital Design

## **The GCRC**

An informational, and archival site that acts as a portal to the Granville Corner School Resource Center. React front end with a Node.js server using Firebase for data storage and authentication. Built in admin portal for the non tech savvy board members to be able to easily curate a variety of different media resources (images, audio, and text).

<http://www.cornerschoolvt.org/>

## **Portfolio**

The place I play with new design decisions, frameworks, and technologies. Will I ever actually finish my portfolio, and have it up for more than a day or two before I tear it down and start to rebuild it? Only time will tell... but it doesn't look like it
